Leadership Balance® and Skillsoft® join together to introduce the most comprehensive *People Drive in TECH Program* available today!

High impact continuous learning for IT Professionals at all levels

Our People Drive TECH Training Program provides you with the knowledge and skills needed to excel at current and future project deliverables. To maximize the time you have to dedicate to learning, we provide sequenced lessons and learning tools built for busy technology professionals.

We believe that true learning is achieved through an experience that supports people in the flow of work – **Watch. Read. Listen. Practice.**

WATCH

- Expert-driven, video courses
- Hands-on insights from real-world technologists
- Micro-learning for agile delivery
- Assessment and exam prep

READ

- Thousands of books from the industry's leading technology publishers
- Access to code examples and other support resources
- Certification prep

LISTEN

- Industry's largest collection of audiobooks
- Coverage for DevOps, Agile and other technical topics
- Relevant strategy and leadership titles

PRACTICE

- Hands-on practice labs for both coding and infrastructure scenarios
- Live, virtual bootcamps
- Integrated mentoring and support

Continuous Learning

Continual learning is an organization's most important tool in adapting to this unprecedented technology transformation where new roles are rapidly evolving, new skillsets are required and business and technology sides of the business are increasingly converging. Our People Drive TECH Training Program provides an abundance of multi-modal resources to prepare for certification exams, trouble-shoot on demand, or acquire new technical skills.

Features of our People Drive TECH Program

Instructional Design - Our courses are instructionally sound because they're developed by industry experts and reviewed by in-house eLearning professionals to ensure quality. We also invest heavily to ensure that our library is refreshed on a three-year cycle.

Channels – Experience over 500 pre-curated channels mapped to the competencies that matter most to leading global companies and assign learning paths to specific audiences.

Inclusive Learning - Users can access a wide range of learning modalities, including videos, digital books, audiobooks, practice labs and live learning to learn in the way that works best for them. These options make our training accessible to people with different learning styles and abilities.

Beginner to Expert levels – We curate content in terms of beginning/ intermediate/ advance/ expert according to the standards and pre-requisite knowledge set by the certification providers and vendors. When we define our levels, we look to industry standards such as SFIA and NICE, as they are developed by industry standards bodies.

Expert Access - We invest in expert instructors that are responsible for the development of our instructionally sound content assets. Leading experts and mentors that provide an affordable fast track to IT certification and offer test preparation to improve pass rates.
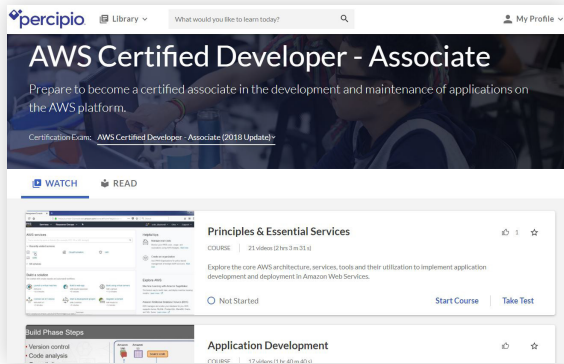

Talent Development - Curated playlists and curriculum maps guide learners through the stages of their career, consistently building on existing knowledge.

Certification - Support for more than 100 professional IT certification exams from leading software, hardware, cloud and professional organizations, with a tracked pass rate of over 90%.
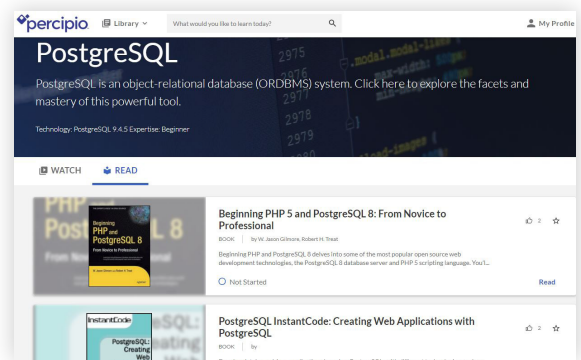

Comprehensive Resources

VIDEOS

Our comprehensive content offering is in a micro-learning format that can be delivered on desktop or mobile applications. We have partnered with content providers like ITPro. TV and LooneyCorn to provide ultra-contemporary technical video courses.
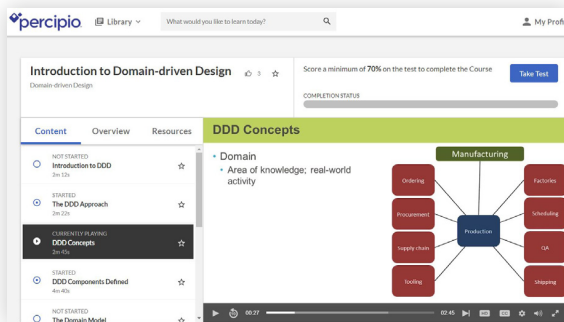

BOOKS

With the widest selection of books on the market today, our library includes publications on developer resources, emerging technologies, certification prep and real time reference troubleshooting. Skillsoft partners with the leading publishers of IT, tech and business skills content in the world including APress, McGraw Hill, IT Revolution, Bleeding Edge Press and Rocky Nook Publishers.

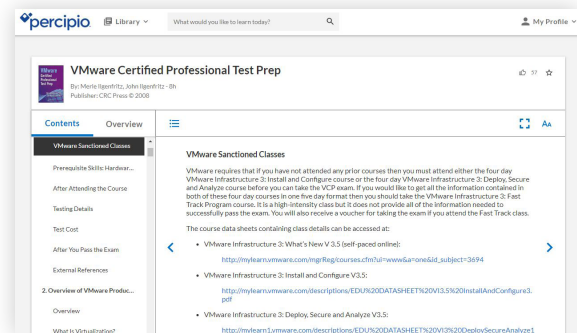

ASSESSMENTS

6,000 assessments mapped to Technology & Developer course library with integrated Percipio reporting and learner feedback on pass vs. fail.
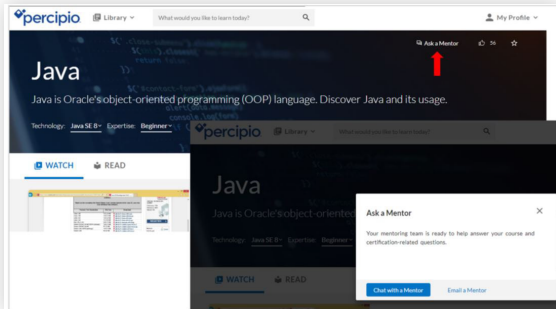

TEST PREP

Our certification tests are designed to allow the learner to practice while preparing for an exam. Tests can be taken as many times as needed so the learner can build confidence in their ability. They can also take the test as a "timed" test simulating the pressure a learner would feel when taking the actual exam. Our surveys show 91% first pass rate for people who use our certification prep content.
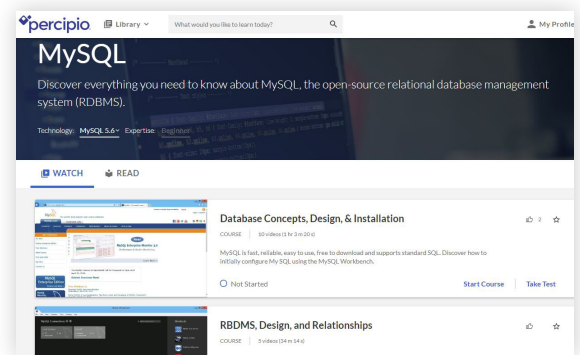

Continued Resources

LIVE MENTORING

Free online office hours with certified IT experts gives learners an opportunity for you to ask a seasoned professional any questions you may have about your upcoming certification test.
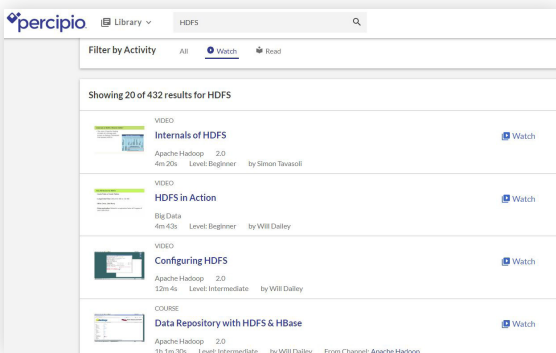

SKILLSOFT CODEX

Our virtual practice lab solution delivers coding exercises with embedded instructional video content that challenges software developers to learn, practice and perfect their coding skills hands-on in an integrated development environment (IDE) with immediate feedback and code validation. By using live machines and fully functioning IDEs, learners can use the sandboxes for other practice and validation needs. Practice labs are available in CISSP, CompTIA, IC3 – Global Standard 5, Oracle, Microsoft administration & certification, Wireshark, VMware, Python, Software Development Fundamentals, and more.

SKILLSOFT BOOTCAMP

Our dynamic virtual classroom experience, where learners access invaluable instruction and real-world insights from leading experts. Learners collaborate in scheduled virtual classroom sessions and have on demand access to replays of prior sessions to refresh and validate knowledge. Skillsoft Bootcamp includes curated resources, all while building confidence and accelerate knowledge retention. Topics include CompTIA, Project Management and MCSE DevOps.

Developer Solutions

BUSINESS AND LEADERSHIP FOR TECHNOLOGY & DEVELOPER LEARNERS

Market-leading leadership and business training provides technology professionals with access to a vast array of ways to develop their skills in order to achieve success as managers, communicators and leaders throughout their career path. Including Executive Education, Women in IT and First-Time managers.

COURSES

We provide expert-led online courses, books, virtual labs, practice tests, and mentoring on today's relevant Developer areas, including:
• Cloud Architectures
  (AWS, GCP, Azure) and more
• Data/Data Science including Infrastructures, Tools
  and Platforms and more
• cala, Go, Python, Java, JavaScript and more
• Microservices, Containers, Automated Testing, and CI/CD and more
• Security, PenTesting, Ethical Hacking and more
• DevOps, Agile, Lean and more

TECHNOLOGY CERTIFICATION

We partner with IT certification vendors to provide training on important exams, including:
• AWS
• CompTIA
• Google
• Linux
• Microsoft
• Oracle
• RedHat
• SAS

BOOKS

Books are an important part of each of the collections and we include the very best titles from over 120 publishers including:
• Apress
• Elsevier Science & Technology Books
• IBM Press
• John Wiley & Sons
• McGraw-Hill
• Sybex
• Oracle Press
• Wrox Press
• ITRevolution Press

LIVE
• Bootcamp
• Mentoring
• Practice Labs
• CodeX

Technology & Developer Collection Details

DATA SCIENCE
- Business Intelligence
- Data Management
- Databases
- Data Mining
- Data Science
- Data Visualization
- Data Warehousing
- Database Design
- IBM Watson/Analytics
- Microsoft SQL Server
- MySQL
- NoSQL
- Oracle Databases
- SAS

MACHINE LEARNING
- Google TensorFlow
- Azure
- MCSA
- SQL Server
- Python for Machine Learning
- SkiKit Learn

NETWORKING COLLECTION
- Computer Network Protocols
- Internet of Things
- Networking Accreditations
- Networking Fundamentals
- Network Management
- Network Security
- Wireless Networking

SECURITY COLLECTION
- Security Accreditations
- Cyber Security
- Auditing
- Software Development Security
- Network Security
- Cryptography
- Computer Forensics

SYSADMIN AND DEVOPS COLLECTION
- Apple Mac OS X
- CompTIA Certifications
- DevOps
- Enterprise Information Systems (EIS)
- Enterprise Resource Planning Systems (ERP)
- IBM
- IT Service Management
- Linux
- Microsoft Certifications
- Microsoft Servers
- Microsoft SharePoint Server
- Microsoft Windows
- Microsoft Windows Server
- Operating Systems and Servers
- Oracle
- Oracle Certifications
- Unix
- Salesforce
- Strategic IT Planning
- System Administration

DEVELOPER COLLECTION
- Agile Development
- Algorithms
- Artificial Intelligence
- Microsoft .NET Development
- C/C++
- Content Management Systems
- Embedded Software
- Game Coding
- HTML5 and CSS3
- Java
- JavaScript
- Machine Learning
- Microservices
- Mobile Development
- Object-Oriented Programming
- Programming Practices
- Programming Languages
- Python
- Software Design
- Software Development Security
- Software Testing
- User-Centered Design
- Virtual Reality
- Web Development

Our World of Work is Changing and Rapidly…. Women, are you ready?

While women comprise of 47% of the workforce, we only represent about 20% of tech workers. We live in a time were competition for talent is fierce. The time is now to ask ourselves "what's in my future of work?" We have an opportunity to learn those new skills needed to capture those future dream jobs, be paid well, and move the needle to a higher percentage of working women in the our rapidly changing tech World.

I grew up in Silicon Valley where my first corporate job was working at Apple Computer for two GMs that reported into Steve Jobs. As a young woman entering the workforce, it was truly amazing to watch Litton (and many other companies who were involved) build the most automated factory (at that time) in the World where humans did not touch the making of a Macintosh computer. Fast forwarding to today, we are embarking on the 4th Industrial Revolution where AI, Big Data, Cloud and Cyber will be key to our future in terms of jobs, innovation and commerce growth.

Making a difference to help women and future generations --- My team and I are so excited to launch our newest program, Women TECH Training to help women stay competitive and to thrive in their careers. A donation from each program purchased will be given back to one of our selected associations who help to advance women in the workplace. Please join our movement to increase women in technology from 20% to 50% by 2030. Together, we can do this!
